## P. Baker's Funeral

### Large Attendance--Manifestations of Grief

The funeral of the late Percy A. Baker took place on Thursday from the family home, north of town. It was the largest funeral ever witnessed in this district, there being about 1000 people present, and every manifestation of grief and respect was shown the departed. Besides a full attendance of local farmers there was a large delegation of leading citizens, all of whom were present, including H. W. Wood, president, and the vice presidents, H. Greenfield and Ross Sheppard. Among the central offices, many locals from far and near sent floral tributes.

The funeral service was most impressive, and was in charge of Rev. Martin French, Edmonton, while Revs. C. Bishop and E. G. Turner also took part.

H. W. Wood spoke feelingly. He considered it one of the most sublime occasions of his life to be called to take part in it. He recounted some of the experiences and trials that had led together. Not only did he deplore Mr. Baker's death as the loss of a dear personal friend, but, coming at the time when the farmers were about to assume control of the destinies of the province, the loss of such a man was a calamity.

Interment took place in Forest Home Cemetery, Ponoka.

Mr. Baker was born in York county, Ontario. He was educated in the public schools of Ontario and the Bible (King James) in Lexington, Ky., being a graduate of the class of 1887. He spent eleven years as a farm hand in Ontario, and twenty years as a minister in Alberta. He was married seven and a half of his later having spent near Gladip, and over ten in the famous corn belt of Central Alberta. His work in Lexington called for a great deal of study of the Bible, the Christian religion, the science of government, political economy and kindred subjects, which was a good foundation for his work in Alberta. Mr. Baker was a charter member of the Arbor Park local union No. 550. He preached regularly and he held positions of trust and responsibility in the church. He farmed to pay his expenses. Mr. Baker had the reputation of being a hard worker as well as a successful farmer, possessing one of the most up-to-date farms in the district. His farm was built up from its own production. He was elected director for Strathcona constituency in 1910 and again in 1917, being appointed by the Provincial Farmers to the position of third vice-president. He resigned in 1917, being appointed by the Provincial Farmers to the position of third vice-president. The resignation of Mr. J. H. Wood in June of that year, his ability as chairman of the committee on order of service, and his general popularity caused him to be highly recognized at the 1918 convention in his election as first vice-president, both of which positions he held to the time of his death.

Mr. Baker leaves a wife, four sons and two daughters. Four sons are engaged in farming, two being married. The fourth son, Addison, who was overseas, is a law student in Edmonton.

The press throughout the province have taken special note of Mr. Baker's death, and the following is culled from the Edmonton Journal: ".... Mr. Baker has died the result of an accident. His death is a heavy loss to the province, for it seemed certain that he would play a large and useful part

## Ponoka Riding Vacant

### U.F.A. LEADERSHIP

#### Cabinet Minister Next Member?

The death of P. Baker leaves the Ponoka constituency without a member, and already there are several names being advanced as likely candidates, in fact the woods are full of them.

This, of course, is only natural. After the verdict on the 18th there should be an easy win for the farmers, no matter who the opposition may bring forward. But surely a contest is not necessary. The cabinet is in the making, and those who are in the know, like Ross Sheppard, H. W. Wood, and others, including the premier, without being vacant, the honor of having a cabinet minister represent us is ours.

An important meeting of the U.F.A. elected members was held in Calgary on Tuesday, and it would be advisable to do nothing until the results of the election are known, and the logical conclusion is that our next member will have cabinet rank, and of course get the seat by acclamation.

#### SUDDEN DEATH

A very sudden death took place on Tuesday, July 19, when Henry Bonnelluck, a local farmer, passed away.

He was on a visit to his daughter, near Alix, and had been out giving a hand in the field. About eleven o'clock he experienced trouble in his bowels, accompanied by feelings of faintness and pain, and, failing to get relief, he expired almost immediately.

Deacon, who was 63 years of age, appeared to be in the best of health, and took an active part in the work of the church. The family came over from Belgium about two years ago, and purchased their farm in 1914. They had a hill farm east of town, and proved to be a splendid edition. Besides his wife he leaves a family of three sons and two daughters.

## "A Message To Garcia"

Some years ago the late Elbert Hubbard wrote what he himself termed "literary trifles," entitled "A Message to Garcia." Did you ever read it? If not, get a copy and do so; it will repay you. Hubbard wrote it in an hour one evening after supper. Of this "literary trifle" he himself said: "The thing leaped hot from my heart, written after a trying day, when I was endeavoring to train some rather obstinate horses to obey me."

The title came from a Frederician. In the course of a few weeks "A Message to Garcia" was translated into every known language and over forty million copies had been printed. And its sale still continues.

The story itself is brief: It is the wonderful lesson it conveys that counts. When war broke out between the United States and Spain over Cuba, it was very necessary for the United States Government to act quickly with the leader of the Cuban insurgents. General Garcia was the man who had to carry the news of Cuban independence to those who knew where. No mail or telegraph message could reach him. The President must secure his co-operation, and quickly. How?

Someone said to the President, "There is a fellow by the name of Rowan who will find Garcia for you, if anybody can." Rowan was sent to the government to be told to be ready at once to go to Cuba. The "trifles" of Rowan's feet were scaled up in an oilskin pouch, strapped it over his breast, in four days landed by sight off the coast of Cuba from an open boat, disappeared into the jungle, and in three weeks came out on the other side of the Island, having traversed a hostile country on foot, and delivered his letter to Garcia.

Now the point of this story is not the bravery of the man in thus risking his life for the demands of men would unquestioning run equal or greater risks; the point is that Rowan took the letter and did not stop to ask a multitude of questions such as, "Who is Garcia?" "Where is he found?" "What does he look like?" "What do you want him for?" "Is there any particular hurry?" No, Rowan took the letter and started, knowing that all that was required of him was to deliver it.

How many of the countless millions of men and women who are employed in shops, factories, stores and offices today, and on the farms, are possessed of Rowan's characteristics? How many display the same loyalty to a trust, and without questioning, concentrate their energies on the task before them. As in the case of the man who carries a message, the inevitable fact is that there is ten to one. Yet, it does not call for any special training, or ability, but merely the exercise of will and a determination to do with.

As Elbert Hubbard pointed out in his little booklet, General Garcia is described as a man who can carry out any order given him, and who, when once he has well applied it times by the inactivity of the average man—the inability or unwillingness to concentrate a thing and do it. Slipshod, fuddled inaction, drowsy indifference and half-hearted work seem the rule, and no man succeeds, unless by hook or crook, or threat of force or bribe, others men to assist him in his task. The motto of the postman is a good one: "Carry a message to Garcia."

Today the average employee is more concerned about working as few hours as he possibly can manage to get away with and still hold his job. His ambition seems to be, not to excel in his work, but to collect from his employer as large a wage as possible in return for which he gives the minimum effort. He wants a good grade of work, but the processes of this kind of employment are so simple and automatic, and combine to compel them to complete a 7-hour day, but they still want an 8-hour day wage. They insist upon the observance of all holidays, but demand to be paid just the same. It is asked in an emergency to do a piece of work which ordinarily does not fall within their duties, they object, claiming they were not hired for that purpose. Fellow "by the name of Rowan" seem to be mighty slow to respond to the call of initiative displayed by the average employee in this capacity, appalled completely with an absolute unwillingness to make his employer's interests his own.

This incapacity for independent action, this moral stupidity, this infidelity of the will, this willingness to cheerfully catch hold and little else are the signs of the Rowan Syndrome. The desire and dare thoughts of the strong and robust, to extend their activities, which might be mighty for the benefit of all. If men will not act for themselves, what will they do when the benefit of their effort is for all?

It is the men of the Rowan type who are getting in the world, while these others remain the willing slaves of the "lucky louts" of the Labor Union. They are protesting in vain, for they are not the ones who profit by the existing system, and no matter how good times may be, the increased sales and more wells are out of work; having been replaced by others, and when there are hard the sorting-out process is done finer—but out and forever out the incompetent and unworthy go.

But there is always an opening, steady employment and a bright future for men and women who can be trusted "to carry a message to Garcia"; however, they are called upon to do so.

## New Type of Aircraft

### Ireland Should Adopt Canada's Constitution

New York World Says Dominion Is Good Model

Under the heading "Canada as a model for Ireland," the New York World comments on the Irish situation:

"It would be well for Irish leaders at this time to consider the case of Canada in furnishing a lesson for their guidance," says the World. "There too, the present social and racial problems of Ireland are as great as those of Canada, and the solution of the former is as difficult as that of the latter."

Sense again, the board decided to propose a new type of model, a machine of latest design for trial under Canadian conditions in connection with civil and government flying. In view of the drastic reduction of air board estimates before they were sought out, the committee was surprised, however, it was found that there was not sufficient money provided for this plan.

It has now been decided by the board to proceed with the construction of a Canadian aircraft. The Canadian aircraft is a new type of flying boat, and is an endeavor to meet the special requirements of civil government flying as based on first-hand experience gained from actual operations carried on by the Canadian government.

Now it is India which is to be visited. The experience of the World War, though it is born under another, and is a born friend under, the prince must find his hours of the dominions growing wearisome now and then. Being here the British theme is a strenuous occupation at times, and the prince wishes that he could be just a human being.—Toronto Star.

## Alberta Highways

Alberta Link of the Trans-Canadian Road Will Be Completed This Year.

Huge sums of money are being spent in road construction in Alberta this season. The Alberta link of the Trans-Canadian road will be completed this year. The greatest part of the road work in the province this season has been in the construction and repairing of the trunk road, but next year branch and district roads and to 1933 it is expected that the province will have a network of highways that will be second to none on the American continent.

The Alberta Government is being asked to increase the construction of the trunk roads by a grant of forty per cent. of the cost of these roads which the Dominion Government is making, provided the work reaches a certain standard which the Dominion Government has set.

OF  
TOWN AND  
DISTRICT

## Local News.

August 25 and 26 are the Ponoka Fair days.

Mrs James Dompson, of Toronto, Ontario, is visiting with her sister, Mrs F. E. Crawford.

Mr and Mrs Wm. Schaefer, of Schaller, Iowa, are visiting with their son, R. F. Schaefer, near Chain Lakes.

Ed. Marshall, of the Bank of Commerce staff, Edam, Saskatchewan, is home for vacation.

Mrs Ed. Schudt is not forgetting his friends with bouquets of flowers. They are exceptionally fine, and much appreciated.

Mrs W. S. Grey, of South Edmonton, is visiting with Mrs (Dr.) Graham for a few days.

Dr. Drinan and family of Outlook, Sask., are camping at Chain Lakes.

Mrs F. E. Drummond, who has been visiting with her sister, Mrs F. E. Lehr, Innisfail, for a time, returned home on Monday.

H. D. Christensen is building a residence in the west end of Donald Avenue.

Messrs J. A. Kerr, J. G. LeFrance and Geo. E. Bowker were in Edmonton last week attending the Shrine picnic.

Mrs Otto Keller, and daughter Lucille, are visiting with the former's mother, Mrs J. S. McCullough.

J. Woodley went to Red Deer Hospital on Monday, where he expects to undergo an operation. His many friends will wish him a speedy recovery.

Miss Ingles left on Monday for month's vacation with the home folks at Jasper Park. She is looking forward to a pleasant holiday among the parts of the province.

Mr and Mrs Bert Hinckley and family left for B.C. last week, where they expect to make their home. It is to be hoped that Mrs Hinckley's health will improve with the change.

The local branch, C.G.I.T., are enjoying a holiday at Gill Lake. Camped on the west side of the lake, the girls are having a glorious time. Misses Mae Laycock and Grace Crawford are in charge.

LeRoy Mattern returned from England last week, having attended and owned the English universities for a time. LeRoy had a splendid visit, and returns with a high opinion of the old land.

F. P. Morris' salo, on the 22nd was very well attended, and Colonel Morrow gave Mr Morris practically \$1000 more than he looked for. Everything sold well, more especially the implements.

Good progress is being made with the fair arrangements, and Secretary Sturt predicts that it will be the best ever staged in Ponoka. A subscription list has been circulated among the farmers and business men in town, with the result that about \$1000 have been subscribed.

## Britain Will Continue Her Policy Of Replacing Obsolete Capital Ships

**London.**—Mr. Lloyd George declared in the House of Commons that it was essential for the Government to proceed with its policy of replacing obsolete capital ships of the navy.

Mr. Lloyd George made this declaration in answer to questions concerning the Government's naval pro-

gramme. The necessity for replacing obsolete ships, the Prime Minister said, would not be affected by the forthcoming conference on disarmament in Washington, which he assumed "will be a complete success."

The Prime Minister was speaking concerning the four capital ships provided for in the naval estimates. He was asked if the Government would not suspend work on capital

ships pending the outcome of the Washington conference.

Mr. Lloyd George said the Government, in replacing obsolete ships, neither committed itself to nor contemplated any extensive programme in this direction.

As a result of certain discussions with the principal naval powers, the

Prime Minister declared, it might be possible to avoid anything in the nature of competitive building, but that there would be a deterioration of the naval programme unless the Government allowed the efficiency in training and morale of the Royal Navy to deteriorate from neglect and not to provide it with material equal to the best and in which full confidence could be reposed.

## UNITED STATES IS HOPEFUL THAT JAPAN WILL AGREE TO FULL DEBATE

**Washington.**—Renewed confidence that Japan will consent to a broad discussion of Far Eastern problems as part of the dismemberment conference was evident in official circles here after another informal exchange of views between the Japanese and United States Governments.

The Japanese ambassador, Baron Shibusawa, called on Secretary Hughes at the State Department and they understood to have discussed at length the situation resulting from Japan's reluctance to have the Far Eastern question subjected to debate in the dismemberment negotiations.

It was indicated afterward that the mutual exchange was regarded as helpful by both sides and that the conversations soon might result in a statement making possible a more formal diplomatic correspondence on the subject.

There was even evidence, however, that the United States Government remained unshaken in its belief that the Japanese would not be willing to drop out of the conference.

It was indicated that despite the succession of British Disarmament commissioners for a postponement of the conference until next spring, officials here believed the party to begin session by early November would be the end final acceptance.

### Bodies Of Fallen Soldiers Removed

**Claims Many Canadian Graves in France and Flanders Are Empty.**

**London.**—The Daily Express makes a sensational statement respecting Canadian bodies on the battlefields of France and Belgium. According to this paper, one of the strongest allegations made by Mr. Lloyd George, the Government official working on the War Graves Commission in reintering the dead, is that "many graves in the Great War cemeteries of Flanders and France marked with the names of fallen soldiers are in fact empty of remains."

The Canadian officer declared to the Daily Express representative: "There is a cemetery at Hooge, which has a whole line of empty graves, although each grave has two men dug up, the body at midnight and the remains were shipped across the Atlantic from Antwerp. One of the men engaged in interments have been questioned and they say the bodies have actually been in the cemetery when graves have been opened and found nothing. Their distress has been beyond imagination."

To this there appears to be a lack of supervision of the general work and so far he relates how a wealthy Canadian from the West, on being denied the removal of his son from a cemetery in France, managed to have two men dig up the body at midnight and the remains were shipped across the Atlantic from Antwerp. One of the men engaged in interments have been questioned in other cases of removal.

To this there appears to be a lack of supervision of the general work and so far he relates how a wealthy Canadian from the West, on being denied the removal of his son from a cemetery in France, managed to have two men dig up the body at midnight and the remains were shipped across the Atlantic from Antwerp. One of the men engaged in interments have been questioned in other cases of removal.

**To Hold Parties for Monarchs.**—Monarchs—Work is immediately to be begun in the city of a programme that calls for 1,500 substantial brick houses for workers.

A corporation composed largely of prominent citizens of the city, including the mayor, is to have the housing shortage handicapping the industrial progress of the city, will finance the project. Workmen will be encouraged to buy houses.

**Red Cross Subscriptions.**—London.—An appeal issued by the British Red Cross Society shows that during the war the public subscriptions to £16,000,000 in cash, and contributed stores to the value of £1,000,000.

A town cannot grow without business. By helping your local dealer you assist the community.

### British and Dominion Premiers To Confer on Disarmament

**Meeting in London May Postpone Indefinitely Return of Premiers Meighen to Canada.**

**London.**—It is believed that the idea of holding a preliminary disarmament conference was originally proposed by Mr. Morris Hughes, prime minister of Australia, and Mr. W. M. Massey, prime minister of New Zealand, who were unable to go to the United States during the war against Germany. The London conference is supposed also to have been strongly favored by Japan.

Instead of the proposed preliminary conference, there will be held a conference between the British, Canadian, and the Dominion premiers. For this purpose, Mr. Meighen of Canada has postponed indefinitely his idea of sailing for home.

### Winnipeg Housing Scheme

**Winnipeg.**—The city of Winnipeg under the post-war housing relief fund will have advanced a total of \$1,435,000 for construction of dwellings when the first building season comes to an end November 1; a representative of the housing commission announced.

Most of the dwellings will be built by local registered contractors in the city.

The houses are constructed according to standard specifications and are inspected carefully while under construction.

### McMillan Expedition To North

**Hope to Winter in Latitude Where No Boat Has Been for Hundred Years.**

**Hallifax.**—We hope to winter in Fury and Ileia Straits, seventy degrees north latitude where no ship has been for one hundred years," said Captain D. McMillan, who, in an interview on board his expedition vessel Bowdoin, to the far north to explore one thousand miles of unknown coast line in the western shore of Baffinland.

The 60-year-old retired Prof. Macmillan is one of the oldest ships

that have ever traveled north.

The last expedition was made by Captain Parry, a British naval officer, who died in 1851.

His aims were to find the Northwest Passage and to search for Sir John Franklin.

In the meantime McMillan has to be

done in the way of revision. The census branch is receiving a large number of reports from individuals who complain of having been overlooked."

**Oilfields On Fire**

**Fire Is Raging in the Anatolian Mexico.**

**Mesico City.**—The Anatolian oilfields are on fire with burning tanks, burning tank cars and the like, according to reports received here, describing "the greatest catastrophe in the history of the world's oilfields."

The cause of the fire is not known.

Financial losses cannot be estimated,

say the experts, add that the conflagration dwarfs into insignificance the Pordio Del Llano con-

flagration.

But only a day or two after, it is de-

## THE HERALD.

Established 1893. Alberta 1902

## Asker

Quite a number from here attended the funeral of Rev. P. Baker, our esteemed member-elect, last Thursday.

Carl Paulson spent a couple of days with friends and relatives last week.

Mrs. M. Wetrie and Miss Anna Wetrie left last Wednesday for three weeks' sojourn at Banff.

Mrs. H. Carruthers is visiting with her sister Mrs. Billingsford, of Okotoks.

The lakes of the vicinity are very popular places these hot days.

A party of surveyors are working through the district these days. Taking levels and staking for a giant ditch to lead the North Saskatchewan River a number of lakes through south-eastward for irrigation purposes.

Miss Nina Hoykay is at Banff taking treatment for her health.

Nelson Smith, M.L.A., of Okotoks, who was a candidate in the Asker hall on Monday, Aug. 1, in the interests of the Milk and Cream Producers' Association. There should be a full attendance.

Miss Duke, formerly a teacher and now a friend of Mr. and Mrs. old-timers, also a widow, Miss Edna Duke, arrived from Lacombe for a visit here. They are at present guests of Mr. and Mrs. J. Ramsey.

Mr. Mair is enjoying a few days vacation from his work at Mr. Mair's of Vancouver B.C.

Rev. Lee, of Duchess, Alberta, who is taking over the parish of the late Rev. J. G. P. Fosditch, spent a few days in this vicinity last week. He also gave a short service on Sunday last in the morning and evening. The congregation were very emphatic in their expressions of appreciation for Rev. Lee's services. Let us hope they may work well and honestly forward and upward for the betterment of the community for many years.

The Legion Aid are to be congratulated on the great improvement in the appearance of the church grounds. The fence and cement walk were well worth the time and trouble it took to acquire.

## Climax

Fine weather these days. Several local showers too. Crops are looking good again.

The reclamation surveys are being made at present.

Miss Viola Orenas has returned from Calgary where she has been attending school.

Mr. and Mrs. L. J. Davies and daughters of Ponoka, were visiting old neighbors here recently.

Mr. and Mrs. Niswander spent Sunday at the Munsey home.

A number of farmers have finished breaking and are sowing. Others have begun laying.

It is thought to be four cutters per acre. Farmers come gardens in this vicinity, destroying everything but corn and potatoes.

## Water Glen

Sometimes over 50 people of Water Glen are at the home of Mr. and Mrs. Gifford Nelson Saturday evening, and had an enjoyable evening. Outdoor games were engaged in, and then all kinds of ice cream and refreshments.

It is thought that they will end up feeding under a deep debt of gratitude to their host and hostess for their hospitality.

Erie Saus, Jack Dunkerley and O. Rose were guests at the Bolch home Saturday evening.

Mr. and Mrs. O. W. Johnson and Mr. and Mrs. E. Gustavson spent Saturday and Sunday at Buffalo Lake.

August Johnson had the misfortune to lose his valuable dog by being run over by a car.

The interior of the Water Glen school has been cleaned and painted by Emil Dufva and A. Johnson, so that when the vacation is over the children will have a nice clean room in which to study.

Mr. and Mrs. C. A. Johnson and Skjel motored to Dundonald Sunday to visit with friend Mr. Erickson.

Miss Louise Stensfeldt, who has been keeping house for her brother George, in Water Glen, returned to her home in Asker last week.

Haying has commenced in this district, and owing to the poor crop will soon be over.

On Monday, we shipped three loads of hay through the U.G.G. Monday, and expect to ship a car load of cattle this week.

Six car loads of young folks from the district motored to Poplar Beach Sunday. This place is getting to be quite a summer resort.

## Glen Fallow &amp; Vicinity

The rains of late are making the farms get busy at seed breaking. The hay crop will be short, but grain and gardens are coming along good.

Mr. James, of Wetaskiwin, has bought the old Arrow place and started work breaking.

Marcus Crandall was out soliciting votes for Dr. Campbell last Friday. Since he is an Elmonton voter last week.

The rain last Friday evening put a damper on the Ferrybank dance, only a small crowd being out, but those who were present danced on.

Tom Ponoka is living on his farm now, and putting his land under cultivation.

Billy Winslow has recovered nicely from the horse kick in the face. It never marred his "good looks."

Al. Johnson, the champion bull-bucker of Alberta, is still on the job.

A Maki made a triple trip west to Wetaskiwin with his cream as the price is better up there.

Joe Breuer is busy working his farm.

John Haring is breaking out more land on his farm.

Mr. and Mrs. Geo. Clark were Ponoka visitors last Thursday.

Mr. J. R. Graham of Roseview, is visiting his parents. Mr. and Mrs. John Graham, also her Grandmother, from Missouri, who is here visiting.

Mr. Nelson was pull clerk and Charles Dean deputy returning officer in the Glenbow election.

The farmers backed Baker strong, as they are tired of the path they have trod heretofore.

## World Happenings Briefly Told

The new St. Clair River channel will soon be ready to accommodate Great Lake freighters.

A shipment of Asiatic coal, the first to reach San Francisco in five years, arrived from Durian, Manchuria.

Steamer *Pew Marquette*, which has been lying at a depth of 80 feet at the bottom of Lake Michigan, is to be raised.

Capt. U. Chapman was awarded the prize for the best loaf of bread at the Evanston, Ill., fair. He defeated 45 women entrants.

Six sisters whose combined ages total 418 years are visiting relatives at Charlottesville, Va. The eldest is 80, the youngest 61.

There are approximately 330,000 Indians in the U.S. who speak 37 languages and two-thirds of whom cannot understand English.

Using a common buttonhook, burglar slipped the mechanism of a safe at the American Boot Shop, Vancouver, and got away with \$1,800.

The Dominion Livestock branch weekly cable from London states that there is a moderate demand for Canadian cattle in England.

From 5 to 25 per cent wage reductions have taken place in the leading industries throughout Canada since the close of 1920.

Two new stations of brick and stone construction will be erected at Prince Rupert and Prince George by the Canadian National Railways, according to announcement.

J. C. McRae, ex-chief of the Vancouver police force, died suddenly, aged 63, at his home in Richmond, Carlton County, Ont., and came to Washington in 1898. Two sons and two daughters survive.

A man eighty years old, of Milton, Ont., says he cannot remember when potato bugs were so numerous. They are in patches of 100 million in millions and great numbers are feeding day and night, trying to destroy them.

Owing to the rapid increase of the school population of the city it has been found necessary to institute the "platoon system" in Calgary schools. When the fall term opens this plan will be adopted in two of Calgary's schools.

Fifteen yards and reports of mysterious ships are sightings along the trade lanes of the North Atlantic, may be explained by the discovery of "blockade runners" that have been landing valuable cargoes of contraband in the last few years.

Mr. Lloyd George declares there is no truth in the report that King George had stepped in to untangle a complication between Great Britain and the United States over the proposed Pacific Conference, before the recitation by the Washington government.

21. Under Siberia situation which emerged from the stage where it continued a threat of war between Germany and Poland with the withdrawal of the armed Polish insurgents and German volunteers, will again be a menace to the peace of Central Europe as long as the Central Powers' suspensions are withdrawn, in the opinion of entente officials who have been in close touch with conditions for many months.

## LOST 29 POUNDS DYSENTERY WAS THE CAUSE

Diarrhoea is one of the worst forms of bowel complaint, and hardly any other disease so quickly undermines the strength and brings on a condition of prostration and utter collapse than those that terminate fatally.

To prevent diarrhoea, change without bringing on constipation you should use that grand old remedy with a reputation extending of 70 years.

## DR. FOWLER'S EXTRACT OF MILD STRAWBERRY

Mr. G. H. McVagh, Mawer, Sask., writes: "About eight years ago I had a severe attack of dysentery. I was sick for three weeks, weighed 100 lbs. when I took sick and 125 when I got it stopped. I thought I tried every medicine in the market but could not find relief until I used Dr. Fowler's Extract of Mild Strawberry, and one bottle did it. I think it is a medicine like it for diarrhoea or dysentery; always keep some on hand as a personal doctor."

Price 5¢ a bottle; put up only by The T. Milburn Co., Limited, Tor-

## Novel Use For German Indemnity

Britain May Use Her Share to Help  
Overseas Settlers.

The parliamentary and deputation committee is considering a novel scheme of overseas development. The proposal is that part of the indemnity Britain is to receive from Germany for the war in a fund out of which loans would be made to suitable men and families to enable them to settle in the overseas dominions. Next December, Great Britain will receive £50,000,000 of German bonds, and the idea is that £50,000,000 worth of bonds should be guaranteed by the British Government and made the basis of advances to overseas settlers, such advances to be secured by mortgages on properties acquired and developed by the settlers.

## Sentenced To Death.

### No Apparent Possibility.

The death warrant is passed out every day now in greater numbers than Putman's Corn Extract. It means the end of the corn. Putman's lists corn, corn meal, flour, starch, and never fails to come up with Putman's 25¢ everywhere.

## Blenheim Palace.

Blenheim Palace, the residence of the Duke of Marlborough, is one of the finest in England. There are one hundred and twenty rooms in the palace and fifteen staterooms. It is said that the value of the contents of worth of property is required every year to keep the window panes in repair.

**PALE AND NERVOUS  
SCHOOL CHILDREN**

## Need Rich, Red Blood to Regain Health and Strength.

Many children start school in excellent health, but after a short time they grow pale and weak, and crowded school rooms cause their blood to become weak and their skin and bones which escape from them, become thin and fragile. Experts declare that if the infant's blood was stopped earthquakes would be less frequent.

**Work of Smugglers**

## Anatolian and Professional Smugglers

Abound on the Franco-German Frontier.

The Franco-German frontier has long been a hunting ground of the smuggler, both amateur and professional. In the customs museum at Lille is a collection of exhibits which give a vivid idea of the tricks employed by the smugglers.

There are chairs, brushes, pitchforks, masons' hammers, hammers, measuring hones, wheelbarrows, saws and boots, all hollowed out for storing away tobacco. There are stacks of wooden pipes, paper cigarette boxes, tobacco receptacles, hollow roulette wheels in which coffee was souped, and workmen's drinking cans with only a few inches of beer in a little vessel. Some of the receptacles hold beer intended for tobacco.

There are numerous examples of spiked armor, spiked collar and harness spiked with a number of sharp spears, worn by the dogged trainees for the battle of the Pyrenees.

One of the most popular articles of clothing is a small black trunk.

On wrenching it open a blaze of jewels sparkled in the sunlight—diamond-studded watches, pearl and ruby bracelets, gold and turquoise collars. It was a fortune lying there on the cushion.

Inquiry showed that the trunk had been stolen from a railroad strongroom where it had been deposited for safekeeping by a traveling salesman for a pair jeweler.

He had hidden it in the river, attached to the bank by a strong black thread, with the intention of salvaging later. The police set a sharp watch, but the news evidently reached the robber, for he made a dash for it.

Bardiney receives a reward of \$2,500 francs.

## Plan Your Vacation Trip

### Special Summer Tourist Fares to the Pacific Coast.

Special Summer Tourist tickets to Vancouver, Victoria, Seattle, and San Fran- cisco, are now on sale daily by the Canadian Pacific Railways.

These tickets will bear a final return until October 31st, and permit stopovers in route, which gives travellers an opportunity of visiting some of the most interesting points of the coast.

In the Rockies, such as Banff, Lake Louise and Glacier, where the Canadian Rockies maintain splendid resort hotels. These tickets are optional via the main line or Arrow Lakes route in our two directions without extra charge. No expensive side trip necessary.

In addition to the "Trans-Canada Limited" exclusive sleeping car train a choice of two other railroads are equipped with observation cars through the mountains an excellent view of the magnificence scenery may be had.

Any agent of the Canadian Pacific will please to furnish the necessary arrangements and make the necessary arrangements for the trip.

## A Great Forest Country.

Canada has much land too rocky or too sandy to grow a farm crop, but just suited to the growing of forest trees. If this land is kept in a state of cultivation, it will be injured, and the timber industry will be injured.

But if the forest is destroyed, the land will become a barren desert, streams will dry up, and business in the timber industry will be lost.

For all who go into the forest be careful let all who go into the forest be careful with fire.

## Oil Has More Steam Than Coal.

The amazing increase in the cost of oil for fuel is due to the weight and with proper burners, the oil-gives 50 per cent more steam than coal. It is easier than coal to handle, it obviates dust and dirt, makes little smoke and no ashes and can be lighted instantly and controlled absolutely.

"I noticed a little pimple on my baby's face. I thought it was from the heat of the sun getting too near the skin was red and sore. He could not sleep or eat the eruption became worse and he began to scratch. I was quite discouraged."

Edith Wharton, the writer, told this story: "The American wounded were being brought in from the second Marne battle," she said, "and a fussy American woman in a hospital bed, who stood beside the stretcher gave her a grim laugh and said: 'Well, ladies, we're not going to get married, but he's been a bit in the family.' Both legs amputated, he got two bullet holes and a sagging testis, and we dropped him three times without his letting out a squeak, so I guess you can tell him a story."

"I noticed a little pimple on my baby's face. I thought it was from the heat of the sun getting too near the skin was red and sore. He could not sleep or eat the eruption became worse and he began to scratch. I was quite discour-

## Nature's Own Boiler

Water From the Seas Runs into the Earth and Causes Activity of Volcanoes.

If Subject to Colds, Here is Real Good Advice.

Don't load up your stomach with cough syrups, send healing medication through the nostrils—send it into the body that way. It is good for colds and catarrh. Easy to do this with CATARROZONE, white helps all kinds of colds, even the common colds goes the healing vapor of Catarrozone—all through the bronchial tubes. It is good for the lungs where a trace of disease remains will Catarrozone follow. In the island of Cephalonia, there exist the seven Ionian Islands, says Dr. Billie.

The power that works the corn mills at Argostoli is derived from the sea, which rushes downards into the land. Many millions of gallons of salt water are run down into the sea, which is the source of the power.

Experts believe that the water finds its way through the soil, and rocks to heated areas far beneath the surface, where it becomes warm. This is the secret of the power of Catarrozone.

Experts believe that the water finds its way through the soil, and rocks to heated areas far beneath the surface, where it becomes warm. This is the secret of the power of Catarrozone.

It is supposed that the active valence of Italy is the safety-valve of the enormous submarine boiler which is turning this inflowing water into the steam and gases which escape from it. These experts believe that if the valves were stopped the world would be less frequent.

**Major Ralph**

The German people are hopeful of being able to pay their war indemnity and indications are that they will be able to do so if given time, in the opinion of Major Spencer Ralph, commanding officer in Canada, which is handling enemy property.

Major Ralph has just returned to Ottawa after spending some time in Europe. In regard to conditions in Germany, Major Ralph stated that he found every evidence that all factories were running full blast all night and German agricultural prospects were excellent.

## EDWARD PITCHES SHUT-OUT GAME FOR PONOKA AGAINST ACME

Excellent Ball Played By Ponoka

Wednesday evening Acme ball team visited Ponoka and played a good, exciting game. The score stood 100-100, with both teams failing to score. At the end of the nine frames the score stood 100-100, Ponoka and served a nice variety of balls, while the opposing team, only touched for two hits. His support was marvelous, especially the ninth frame being by Gwin. In the ninth frame he had eight strike-outs to his credit, but support was poor, and in the fourth frame was hit hard.

The first three innings were scoreless, but in the fourth frame Ponoka broke loose and bunched five hits which enabled them to recover to the pace. The ninth frame was also easy going for the home boys from the start. Two of the four hits in all were received from the Acme pitcher's offerings. Ford and Denevers were the only ones to get wallop, although Denevers got nipped at the plate trying to stretch his three base hits.

In the seventh inning A. Mullins with an unfortunate accident while running to third base, hit the plate. Just as he stepped on the base he tripped and fell, painfully injuring his knee. He took his place in the field for the remaining two innings.

D. Bush and J. LaFrance were uniques.

Score by Innings:

	R H E
Acme	..... 000 000 000 0 2 8
Ponoka	..... 000 512 38 10 9 10

Batters—Acme, Gwin, Ford and MacAllister; Ponoka, Woodard and Ford.

## WETASKIWIN DEFEATS PONOKA 9 TO 4

Ponoka team visited Wetaskiwin on Friday night and played a poor game—simply giving Wetaskiwin a point. The home score was 9 to 4. Ponoka went into the game with 100, but as their play out and he retired to the first, the other two runs were received. He was helped by a ball who struck out five, but in the eighth frame he was nipped at the plate, crossed the plate. Godfrey, for Wetaskiwin had a bad inning in the sixth when he hit a single, a double, a base hit and two singles and Ponoka tied the score with three runs. The feature of the game was the home win's two double plays and three base hits by Stack of Ponoka and Ryan of Wetaskiwin.

The batteries were—Ponoka, Campbell and Ford; Wetaskiwin, Godfrey and Campbell.

## FOOTBALL

Friday evening a football game between Magic and the Hospital team was played on the hospital grounds. Magic going down to defeat—3 goals to 2. The game was fast, and both teams evenly matched, although it might be said, Magic had the better of the game. The ball was out of play repeatedly in the first half, and quite a deal of offside play on the home team's part hindered a good exhibition of football.

However, both teams pressed eagerly for a counter before the interval, and just before the whistle sounded one of the hospital forwards scored his individual goal.

In the second half was faster, Magic showing good combination, and in the first few minutes made the score. Again the Welsh boy, Godfrey, acted as center in keeping the goals for a lead of one. Play remained steady for a time, but at last the home forwards broke through the defense and scored, pressing steadily in saving, but the ball went back with terrific force and lay in the net. Again the score was tied. On the assumption of play the ball was out of play again, thus enabling a goal kick. In the kick of James place the ball at the hospital centre forward's foot, who was only a few feet from goal, making a goal of his own score. The point arises, was this play off-side? The referee said no, and so the hospital team barged the goal and said they won—3.

### TO KNOW WHAT COMFORT MEANS

Let me test your eyes and fit you with glasses that will give you the best vision and make skilled optometrists. No matter what your eye trouble is we have the right glasses to help you. Don't neglect your eyes.

## JUDICIAL SALE OF FARM PROPERTY

Pursuant to a Judgment and Final Order for Sale there will be offered for sale by public auction, with the assistance of the Sheriff, at the Courthouse of Alberta, by J. H. Whitney, Esq., at the Office of the Lacoumba Land Surveyor, Ponoka, Alberta, on Saturday the 13th day of August, A.D. 1921, at 1:30 o'clock in the afternoon, the following property, being the East half of Section thirty-one (31), containing forty-one (41) acres, or thereabouts, five and one-half (5 1/2) acres of land, in the Province of Alberta, containing 220 acres of land, the same being described as follows: The property is situated two miles East of the Village of MorningSide, in the Municipality of Lacoumba, and contains 30 acres in timber and 150 acres in grass, the whole of the property being bounded by the Bow River, with willow and tamarac posts, 40 acres are fenced with woven wire fence, and the remainder of the property is erected upon the said lands. Dwelling house, barn, stable, garage, 20x30, with loft. Granite 18x18. All the buildings are frame and well constructed, the house being a single story, with gabled roof, with eaves running through the same, the soil is a black loam with a heavy clay subsoil, the water supply on the farm is most desirable purchase.

The property is offered for sale subject to all taxes, all rights, options reserved and excepted in the original grant from the Crown, and in the grant of the title of the property to the grantee owner. The property will be offered for sale at such a price as may be fixed by the Court.

Terms of payment are 10 per cent. of the purchase price, payable in advance, and the balance thereof to be paid into court on the 13th day of August, in 90 days of the said sale without interest. In all other particulars the property is offered for sale under the standing conditions of sale of the Supreme Court of Alberta.

Information may be obtained from J. H. Whitney, Esq., the auctioneer or from S. Scott, CARWELL, Esq., the Lawer.

Approved this 21st day of July A.D. 1921.

L. J. Mahaffy,

## Mothers! When Buying Shoes Think of Quality, Not of Price

Because it is the length of life of a shoe that determines its real cost to you. You may have a few cents in the original purchase, but have cheaper shoes that wear out in half the time.

Hurts are without doubt the highest quality of children's shoes make today, the fact that they cost more per pair is entirely offset by the far longer time they last and keep their shape, and by the comfort and perfect fit they give.

## Keeps Motors Smooth Running

Quality maintains economy. You may pay less "per gallon" for other lubricating oils but you get more lubrication "per dollar" when you buy Imperial Polarine Motor Oils.

USERS of Imperial Polarine Motor Oils enjoy a singular freedom from engine trouble, which is at once a source of profit and pleasure to them.

Every bearing and rubbing surface is cushioned with an unbreakable oil film reducing friction and minimizing wear. Good combustion is also maintained, saving both fuel and oil and increasing power.

Lessened repair bills, lower upkeep costs, better satisfaction and longer service from your car follow the use of Imperial Polarine Motor Oils.

Consult our Chart of Recommendations for the grade of Imperial Polarine Motor Oil required for your motor. See Chart at your dealers or write to 50 Church Street for "Automotive Lubrication," a booklet which contains the Chart and other valuable information.

IMPERIAL OIL LIMITED Branches in all Cities

FOR A CLEAN EFFICIENT MOTOR

The crank case of your motor should be drained, cleaned and refilled with fresh Imperial Polarine every 1,000 miles or less. Dealers who display this sign give expert crank case cleaning service, using Imperial Flushing Oil, a scientific cleaning agent which removes all dirt, grit and impurities, which are so harmful to your engine. It will pay you well to employ Imperial Polarine Crank Case Service to-day.
